

Extension of the Product Range

Management board of Selena FM S.A. (hereinafter the "Issuer") hereby informs that in Q1 2022 the Selena Group is expanding its product range addressed to industrial customers, which allows the Selena Group to increase its involvement in the area of environmentally-friendly business.

Considering that the Selena Group for years has been introducing roofing products to the market to increase the energy efficiency of buildings and to improve the comfort of their use, the Issuer's Management Board has decided that as part of extending the product range of:

▫ drawing on many years of experience of the Selena Group in the area of offering roofing materials used in industry, logistics and agriculture, the Issuer's subsidiaries will start operations in the renewable energy sector, including in particular the installation of photovoltaic systems on the roofs of industrial buildings and accompanying works using the traditional range of products;

▫ the Issuer's extended range will be provided in particular by the Issuer's subsidiary - Selena ESG sp. z o.o. (the Issuer holds 100% of Selena ESG sp. z o.o.) - and other subsidiaries of the Issuer, which will develop their ideas in search of energy-saving solutions for the construction industry.

In the opinion of the Issuer's Management Board, the actions taken should have a positive impact on creating value for clients, and therefore on the Issuer's future financial results.
